## How we can help?

LawDeb has provided **security trustee** and **bond trustee services** to borrowers in relation to the financing for substantial residential, ground rent and commercial property portfolios for many years. We are extremely comfortable with handling large volumes of properties.

Security trust arrangements provide registered providers (“RPs”) with important flexibility, allowing financing (and refinancing) to take place expeditiously and in a cost-effective manner. Properties can be charged to the security trustee at the outset of the trust or added later when the need arises. They can be designated to specific lenders as necessary and can be moved from one lender to another without the need to discharge and recharge the security. Properties can also be left “unallocated” in the trust giving the RP the flexibility to designate them quickly to new lenders.

We are also appointed on a number of **private placements**, both as security trustee and, where investors require bespoke services such as the provision of information, compliance review and covenant monitoring, as **noteholder representative**.

## What makes us different?

We pride ourselves on the close relationships we have formed with RPs and with investors alike and the comfort they take from our **fast response times, efficiency, flexibility** and, of course, our **independence**.

We have a large dedicated and experienced team working on these transactions within the Corporate Trust department who are tasked to look after substantial property portfolios. As well as social housing transactions, we have experience of working on a variety of securitisations in the real estate space, including the Annington Property securitisation of MoD housing (approximately 40,000 properties) and the Unique Pub securitisation (approximately 4,000 properties).

## Our experience

LawDeb has acted as trustee for RPs and lenders for over 30 years. From the first capital markets issuance by **The Housing Finance Corporation** in the 1980s, through to the expanding use of security trustees for all types of lending to more recent private placements, MTN programmes and financing vehicles such as MORhomes and bLEND Funding.

Other clients include:

**Broadland Housing Group, Cartrefi Conwy, Eden Housing Association, Eildon Housing, ExtraCare, Festival Housing, Fife Housing, Greenfields Community Housing, Hyde Housing, Link Housing Group, London & Quadrant, Metropolitan Thames Valley, Ocean Housing, Origin Finance, Plus Dane Housing Limited, Poplar HARCA, Synergy Housing, Tower Hamlets Community Housing, WATMOS Community Homes and Yarlington Housing Group.**

# Capital markets

LawDeb is renowned for its work as both bond trustee and security trustee in the international debt capital markets and our breadth of experience ranges from unsecured issues by sovereign and supranational entities through major corporations to companies issuing on a secured basis. We act also as trustee on medium-term note programmes for a large number of banks and other corporations both in the UK and abroad.

We are the trustee used by **The Housing Finance Corporation**, **Affordable Housing Finance**, **MORhomes** and **Quadrant Housing Finance** for their issuance in the capital markets and we act as trustee for the **Bank of England**'s Debt Issuance Programme and for the majority of the UK clearing banks such as **HSBC**, **Lloyds** and **RBS**. Other leading corporate clients include **BP**, **BT**, **Enterprise Inns**, **Euroclear Bank**, **GlaxoSmithKline**, **Intesa SanPaolo**, **Ladbroke's Coral**, **National Grid**, **Prudential**, **Santander**, **Tate & Lyle**, **Unicredit AG**, **Unilever** and **Vodafone**.

Our structured finance experience includes securitisations, synthetic issuance, collateralised loan/debt obligations and repackaging programmes.

# Security trusts

LawDeb acts as security trustee in a variety of funding scenarios where the lenders/investors require an **independent** and **non-conflicted** party to hold the collateral. Outside the social housing sector, this may arise in the case of syndicated bank debt such as for **Jacobs Douwe Egberts**, acquisition finance with bond and/or bank finance such as **Holding Medi Partenaires** and **OGF**, general secured multilateral funding as in the case of **Outokumpu** or mortgage debenture stocks for property groups such as **Peel** and **Intu**.

We are security trustee for **Camelot**, the operator of the UK lottery, where monies (funds collected and prize money) are held in a security trust pending each lottery draw and invested. We are also security trustee for the lottery operators of the Europe-wide lottery **Euromillions**.

As well as holding general corporate security such as floating charges, LawDeb has experience of holding security under local law in jurisdictions all over the world. The assets concerned are wide-ranging, for example from real estate and ground rent portfolios to shares and from bank accounts to the benefit of contracts, permits and insurances.

LawDeb is also frequently appointed to act as security trustee on major project and infrastructure financings in many different countries by the **World Bank** because of our experience and their wish for the security to be held by a totally independent third party with no possible conflict of interest. We have acted in the same way on other such financings for **International Finance Corporation**, **Asian Development Bank** and **Islamic Development Bank**.

As Trustee they have been efficient and diligent in the new issue process, recognising our deadlines and delivering accordingly.
